

J. PERSONAL SERVICES POLICY

Personal services shall be defined to include those services that require specialized technical, creative, professional, or communication skills or talents, unique and specialized knowledge, or the exercise of discretionary judgment, and for which the quality of the service depends on attributes that are unique to the service provider. Such services shall include, but are not limited to: architects, engineers, surveyors, attorneys, accountants, auditors, computer programmers, artists, designers, performers, and consultants. The manager or his/her designee shall have the authority to determine whether a particular service is a "personal service" under this definition.

Personal service contracts do not require a competitive bidding process. When screening or selecting a personal service contractor, the District will consider qualifications, performance history, expertise, knowledge and creativity, and the ability to exercise sound judgment. The selection is based primarily on these factors rather than price.

Contracts for architectural, engineering, photogrammetric mapping, transportation planning or land surveying services shall be awarded according to ORS 279C.110(3), unless otherwise provided in this Section. A contract for architectural, engineering, photogrammetric mapping, transportation planning or land surveying services may be entered into by direct appointment if such contract is estimated not to exceed \$100,000.00 in a calendar year, or if the project described in the contract consists of work that has been substantially described, planned or otherwise previously studied or rendered in an earlier contract with the consultant that was awarded under these Rules, and the new contract is a continuation of that project.
