

Media Release: 2/20/17

**Tumalo Irrigation District closes portions of the old Cascade Mining site due to sink holes.**

The former Cascade Mining Pit on Tumalo Reservoir Road is currently being posted “no trespassing” in certain areas due to sink-holes which developed.

Due to the heavy snow melt and rain events, multiple sinkholes developed causing a safety concern to both people and pets which prompted the emergency posting.

The District asks that people trespassing on unclosed portions of district property to please respect the signs and stay well away from any potential sinkhole activity. The District also asks people to please report any new sink holes that may develop outside the newly posted areas. Please report any hazards to the District office at 541-382-3053

Please see the attached map for locations

Thank You

Ken Rieck  
District Manager
